Client Brief

About the Company

- Founded in 2019, Resonal Tech is a leading Software Development Company specialized in Websites, Mobile Apps, ERP Systems, Branding, and AI Solutions.
- Operates across Saudi Arabia, Egypt, and the Gulf Region, focusing on smart digital transformation for SMEs and enterprises

Target Market & Audience

- **Primary Market:** Gulf region with focus on KSA (Riyadh, Jeddah) and Egypt (Cairo, Giza).
- **Target Clients:** SMEs seeking scalable, customized digital solutions.
- **Industries Served:** E-commerce, Construction, Healthcare, Real Estate, Legal, Education, Food Delivery, and Tracking Systems.

Business Objectives

- **Build brand awareness** and **increase sales** through integrated digital campaigns.
- Expand in the **KSA market** by attracting new **B2B leads and investors**.
- Strengthen positioning as a **trusted digital transformation partner** in the Gulf.

Key Performance Indicators (KPIs)

- **Qualified Leads & Retention Rate.**
- **Conversion Growth** through campaigns.
- **Brand Awareness Metrics** via engagement and reach.

Unique Selling Points (USP)

- **1 Year Guarantee** for all delivered projects
- **24\7\365 Technical Support** with fast SLA
- Free edits (if agreed in scope), and paid add-ons for new features.

Challenges & Opportunities

- **Weakness:** No physical office in KSA yet.
- **Opportunity:** Leverage digital campaigns to establish strong brand presence and acquire strategic partners.

Services

- Website projects start from **EGP 50K**.
- Mobile apps start from **EGP 250K**.
- Special offer: **25% discount** for the first 10 subscribers.

Campaign Focus & Platforms

- **KSA:** Instagram.
- **Egypt:** Facebook.
- Campaign goals: mix of **Awareness + Lead Generation**.
- Participation in **LEAP Tech Event** for visibility and networking.

Future Vision

1. Triple the number of quarterly projects.
2. Continue developing **AI-based SaaS products and custom ERP platforms.**
3. Strengthen partnerships and brand trust across the region.

BUSINESS MODEL CANVAS

Key Partners

- Business Developers
- Data Base
- Marketing Team

Key Resources

- Website and application development.
- Advanced development tools and techniques.
- A specialized digital marketing team.

Key Activities

- Applications
- Websites
- Technical support
- User Experience Design
- Data analysis
- Performance reports
- Digital Marketing Campaign Management

Value Proposition

- Helping projects expand and grow.
- Establishing and distinguishing brand identity.
- Increasing sales and accelerating market penetration.
- Get an exceptional experience and after-sales service.

Customer Relationship

- Direct and rapid communication via social media platforms.
- After-sales follow-up and technical support.
- Loyalty programs and discounts for regular customers.

Customer Segments

- Small and medium-sized business owners.
- E-commerce stores and entrepreneurs.
- Companies looking to digitize their operations.

Channels

- Instagram
- Facebook
- Public relations

Cost Structure

- Team salaries (programmers, designers, marketers).
- Server and domain hosting.
- Paid design and development tools

Revenue Streams

- Selling websites and applications.
- Monthly subscriptions for support and maintenance

SWOT Analysis

Strengths

- Competitive pricing (30% lower)
- faster delivery (20% quicker)
- one-year warranty with 24/7 support
- diverse services including Hypered Packages
- plus strong client satisfaction and case studies

Weaknesses

- No physical office in KSA
- low demand for ERP & AI services
- weak brand awareness (relying only on personal networks)
- and shorter market experience (since 2019)

Opportunities

- Huge digital growth in Saudi (Vision 2030)
- rising demand for e-commerce & apps
- potential from events like LEAP
- chance to upsell services (Marketing, Branding, AI)
- and ability to localize content for Saudi market

Threats

- Strong, established competitors (local & Indian firms)
- ERP market saturation
- economic/payment risks
- weak brand recognition
- and crowded Gulf tech market

Competitor Analysis Summary

Direct Competitors

- Has 5 branches: two in Saudi Arabia, one in the UAE, and two in Egypt.

- Has 2 branches: one in Egypt and one in Saudi Arabia.

- Has offices all over the world, including Saudi Arabia and the UAE.
- It was listed by **IAOP** among the **Top 100 Outsourcing Companies in the World for 2025**, for the fourth year in a row.

- Has 2 branches in Saudi Arabia (Jeddah and Riyadh).

InDirect Competitors

- Has 2 branches: one in Egypt and one in Kuwait.

- Has 2 branches: one in Egypt and one in Kuwait.

1. Competitor Analysis (Direct Competitors) – Websites

Strengths

1. **Wide service variety across** all competitors (Web, Apps, E-commerce, Branding, ERP).
2. **Google Ads active:** ScienceSoft, Moltaqa.
3. **Strong credibility:** ScienceSoft (ISO certifications + global presence).
4. **Well-structured service pages** (Awamer Alshabaka, Athr).
5. **Multi-platform presence increases traffic** (Awamer Alshabaka, Athr, Moltaqa).
6. **Research-based solutions** highlighted by Moltaqa.

Weaknesses

1. **No Google Ads:** Athr, Awamer Alshabaka.
2. **Generic USPs with no strong differentiation** (Athr, Awamer Alshabaka).
3. **Limited case studies/results across all competitors.**
4. **Weak Saudi-focused content for Egypt-based companies.**
5. **High similarity in services → low differentiation (all competitors).**
6. **Overly broad service lists create unclear positioning** (Athr, Awamer Alshabaka).

2. Social Media Competitor Analysis Summary (Direct Competitors)

Strengths

1. **Competitors use different social media platforms actively.**
2. **They mainly focus on their websites**, Facebook, TikTok, Instagram, and sometimes Snapchat.
3. **Their designs are professional** and consistent with their brand identity.
4. **They apply POC models and focus on branding for their services.**
5. Some use emotional or engaging content, such as celebrating employees or introducing their roles.

Weaknesses

1. **Most of them do not use paid social media ads.**
2. As a result, any offers or discounts they share get little attention because they are not supported by interactive or targeted content.
3. Many have accounts on X (Twitter) but rarely post.
4. Their writing style lacks consistency; they mix formal and informal language.
5. Some companies, such as Roqay, have weak customer service, according to one client's experience.

STP Marketing

Segmentation:

- Focus on Small and Middle companies & startups across industries (E-commerce, healthcare, education, real estate, food delivery)
- mainly in Saudi Arabia (Jeddah & Riyadh)

Targeting:

- Primary audience = Small and mid companies in KSA
- secondary = startups in Egypt.
- Future opportunity with large enterprises (ERP/AI) & Gulf countries

Positioning:

- one-year Guarantee

Segmentation, Targeting, and Positioning

bbanote.org

Objectives

1. Increase Sales of Hypered Packages

- Sell 3 Mobile App + 3 Website packages in Saudi Arabia (per quarter)
- Competitive price (18,000 SAR) + 25% discount for first 10 clients
- Hypered Packages generate 35% of total revenue

2. Build Brand Awareness in Saudi Market

- Strengthen presence on TikTok + Instagram (KSA) and Facebook (Egypt)
- Achieve 1,000 new followers and 1,000 engagements in 3 months
- First paid campaigns = high growth potential

Objectives

3. Generate Qualified B2B Leads

- Get qualified SME leads in first quarter
- Tools: Landing pages + paid ads + LEAP event participation

4. Improve Client Retention Rate

- Launch support & maintenance programs + upsell services (AI, Branding).
- Target 70% client retention within 12 month
- Strong after-sales service = higher satisfaction & referrals

Target Audience

- **Age category**

1. From 30 to 60
2. Owners of companies

- **Geographic location**

Saudi Arabia (Jeddah - Riyadh)

- **Interested and attitude**

1. Clients want to move and lead their business to digital media
2. They focus on trusted companies to do this step

Eng . saleh el hammadi

Age: 45

Location: Jeddah ,saudi arabia

Occupation: Owner of a mid-sized agricultural trading company

Education: Bachelor's in Agricultural Engineering

Business Type: Import & Export of seeds, fertilizers, crops and finalize permissions for other farms

Background

Mohamed has been in the agriculture business for over 15 years, focusing on importing high-quality seeds, exporting crops, and consulting other farmers and traders. His company is now expanding internationally and needs a professional multilingual website to communicate with partners in the Middle East, Africa, and Europe.

Goals

- Build a credible online presence to attract global partners.
- Have a multilingual website (Arabic, English, French) to reach different markets.
- Showcase products, certifications, and services clearly
- Generate qualified leads through online forms and inquiries.
- Position his company as a trusted advisor in agricultural trade & consultancy.

Challenges

- Language barriers when dealing with foreign partners.
- Limited digital presence compared to international competitors.
- Building trust with global buyers online.
- Complex import/export compliance regulations.

Needs from the Website

- Multilingual support (Arabic, English, French, others if needed).
- Company profile & credibility elements (certificates, licenses, partnerships)
- Clear product/service catalog with images and details.
- Online consultation booking system for agricultural advisory.
- Contact forms & WhatsApp integration for fast communication.
- SEO optimization to appear in global searches.

Key Messaging

- "Your trusted partner in agricultural trade & consultancy."
- "Connecting farms to global markets with quality and trust."
- "Multilingual agricultural solutions for international growth."

Name :Khalid Al-Harbi

Age :50

Location: Riyadh, Saudi Arabia

Occupation: Independent Trade Intermediary

Business Role: Connects wholesalers with retailers

Education: Bachelor's degree in Business administration

Status: Married

Goals

- Earn commission by successfully connecting wholesalers and retailers.
- Build a trusted reputation as a reliable middleman.
- Expand his network of suppliers and retailers through digital tools.
- Save time by managing multiple deals from one platform

Challenges

- Relies heavily on manual calls, WhatsApp chats, and personal contacts.
- Difficult to keep track of changing wholesale prices and promotions.
- Risk of delayed payments or disputes without a clear system.
- Time-consuming to physically visit wholesalers or retailers.

Needs from the App

- A central mobile platform to connect wholesalers & retailers.
- Clear commission system that secures his role as intermediary.
- Real-time product prices & availability from wholesalers.
- Secure payment options (Mada, STC Pay, Bank Transfer).
- Arabic-first interface, easy-to-use and mobile-friendly.
- Ability to track orders & deliveries directly inside the app.

Key Messaging That Converts

- Be the smart intermediary — all deals managed in one app.
- Connect wholesalers and retailers instantly — and grow your commission.
- Save time, build trust, and increase your profits with a secure marketplace.

Our Strategy

1. Establish Authority & Trust

Utilize a professional, confident Tone of Voice to clearly Resonal Tech's

Website Wireframing

My Approach

Before creating any design, I first studied:

- The client’s services
- The Saudi & Egyptian market behavior
- Competitors’ structure
- SEO keywords from both Arabic & English lists
- User journeys for B2B service buyers

My main objective was to build a website that is:

- ✓ Easy to navigate
- ✓ SEO-ready
- ✓ Conversion-focused
- ✓ Aligned with Saudi audience expectations

Website Wireframing

A) Why this site structure?

The site structure was designed to guide visitors through a clear conversion funnel:

1. Home → trust building + value proposition
2. Services Pages → detailed breakdown, strong CTAs
3. Hypered Packages → simplified offer for fast decision-makers
4. Industry Solutions → speak directly to the buyer persona
5. Portfolio → proof of work + credibility
6. Blog (SEO) → attract long-term organic traffic
7. Contact / Lead Forms → simplified and optimized for Saudi market

Every page was mapped to a specific SEO keyword cluster to help rank the site.

B) Copywriting Logic

In all pages:

- I used clear simple English,
- Focused on benefits, not features,
- Ensured every section has a CTA that reduces friction.

The wireframes were built to avoid clutter and highlight what Saudi buyers search for:

- ★ Speed
- ★ Quality
- ★ Clear pricing
- ★ Support and reliability

Media Plan

Media Plan			total budget: 3 k						
Business name : Resonal Tech									
Estimated daily results									
Platform	Objective	Conversion location	budget	days	daily budget	Audience Size	Reach	Result	content
Facebook & Instagram	Engagement	Messages	750	2	350	2,800,000 -3,200,000	6.4K - 15K	1.5 K	(A/B Test) Single Photo / Carousel
	Sales	Messages	750	2	350	2,800,000 -3,200,000	9K - 21K	2 K	(A/B Test) Single Photo / Carousel
TikTok	Traffic	Website	750	2	350	12,462,000-15,233,000	15K - 39K	15 k	Single Photo
	Lead Generation	Instant form	750	2	350	18,557,000-22,682,000	6 - 18 Leads	12 Leads	Single Photo

Media Plan

The client was afraid to run ads because competitors spend thousands without getting leads.

So I built a plan with very low budget and zero waste using narrow targeting only.

Media Plan

My strategy included 4 steps:

Step 1 – Build Audience Foundations

I explained that building real followers & trust for a tech/branding agency requires:

- Consistent educational content
- Awareness + consideration ads
- SEO-aligned website content
- Full-funnel presence on Instagram + TikTok

This needs 12 months of consistent work.

Media Plan

Step 2 – Test Market (Egypt) – A/B Test

I launched a Messages Engagement A/B Test to understand buyer behavior.

Result:

Egyptian audiences responded to content that helps them increase sales and manage their business. So I used this to refine messaging for Saudi.

Media Plan

Step 3 – Saudi Market A/B Test (Meta Ads)

When I used the same Egyptian creatives in Saudi → zero results.

So I redesigned:

- New visuals in Saudi tone
- Local dialect
- More professional single-photo + carousel ads

Result:

- ✓ Single photo performed best
- ✓ Reached the right persona
- ✓ Brought 4 real Saudi leads from Instagram messages
- ✓ With extremely low budget

Media Plan

Step 4 – Expansion to TikTok (Traffic + Leads Form)

After discovering the winning creative, I launched:

1) Website Traffic Campaign

Goal: drive users to the website lead form page.

2) TikTok Instant Form (Lead Generation)

This brought 12 real Saudi leads who submitted the form.

This is a strong result given the limited budget (≈ 1200 EGP only).

Campaign Results Summary

Meta (Facebook - Instagram – Saudi Market)

- **Strongest performance:** single photo ad
- **Leads generated:** 4
- **Targeting used:** Hyper-narrow interests (tech, business owners, SaaS, marketing, entrepreneurship)
- CTR and impressions were healthy vs budget
- **Audience distribution:**
 - Majority men
 - Ages 18–44
 - Most traffic from Instagram

Campaign Results Summary

TikTok – Traffic Campaign

- 15,000+ impressions
- Good CTR considering niche audience
- Clicks sent directly to website form

TikTok – Lead Generation Campaign

- 12 leads submitted the form
- Best cost efficiency
- Strong engagement from Saudi Arabia
- High relevance of the creative & local tone made a huge difference

Key Insights

- **Market behavior matters:**

What works in Egypt does NOT work in Saudi.

- **Local tone wins:**

Saudi-style visuals and dialect improved results dramatically.

- **Budget size is not the problem:**

With smart targeting and A/B testing, even very small budgets deliver.

- **TikTok is more powerful than Instagram for B2B leads in Saudi right now.**

- **Website must be optimized for the journey:**

Because 12 people actually submitted forms, meaning the landing page experience was strong.

Recommendations

1. Scale TikTok Lead Generation with a slightly higher budget.
2. Create monthly content pillars aligned with SEO keywords to grow organic traffic.
3. Build retargeting campaigns for website visitors.
4. Launch Hypered Packages landing pages with strong social proof.
5. Start producing video case studies for trust.

Visual Identity

logo: It is Simple, balanced, and attractive to reflect the essence of the brand and help the audience recognize it.

Background:

1. General Aesthetic and Atmosphere A subtle, abstract, and futuristic technological background with a high-contrast, energetic gradient. The overall aesthetic is clean minimalist, and modern, perfectly suited for a tech brand's visual identity, conveying innovation and digital connectivity.

2. Primary Color Gradient (The Background Fill) The background features a smooth gradient transitioning between three highly saturated, energetic colors, directly matching the style of the RESONAL.

logo: Starting Color (Left Side): Luminous Electric Yellow Color

Name: Electric Yellow Approximate Hex Code: #FFFF00 to #FFFC00 (A brilliant, saturated yellow).

Description: This bright, near-neon yellow dominates the left side, symbolizing energy and innovation.

Transition Color (Center-Mid): Bright Aqua-Green/Teal

Color Name: Spring Green / Bright Aqua Approximate

Hex Code: #00FF7F to #55FFE1 (A highly saturated, cool green-cyan blend).

Description: This color forms a dynamic, fluid link in the center, enhancing the futuristic and digital flow.

Ending Color (Right Side): Dynamic Electric Blue

Color Name: Electric Blue / Deep Electric Blue Approximate

Hex Code: #7DF9FF to #2C75FF (A vivid, highly saturated electric blue).

Description: This color provides depth and a technological anchor, dominating the right section.

Overlays and Effects

The visual depth and technological theme are created by these fine details.

Central Illumination: A soft, fairly warm white light blooms in the exact center. It exhibits a very soft radial gradient effect but is not overly bright, providing a subtle focal point.

Hex Code: #FFFFFF (Diffused).

Circuit Pattern: Faint, thin, white-glowing circuit board patterns are overlaid onto the gradient. The patterns are subtly radiating outwards from the center, suggesting connectivity.

Hex Code: #FFFFFF (Low Opacity).

Particles: Tiny, delicate, shimmering bokeh particles are sparsely scattered across the entire image. This adds a final ethereal and high-tech touch to the scene (And consistent with the logo colors)

Color Palette: RESONAL Background Color Palette This palette is built on a vibrant, high-contrast tri-color gradient overlaid with delicate white technical elements, ensuring a modern, energetic, and digital aesthetic.

I. The Gradient Colors (Base Palette)

The main body of the background transitions smoothly between these three highly saturated, electric hues:

Color Name	Hex Code	(Approximate) Function and Mood

Electric Yellow #FFFF00 Energy & Innovation. The starting point of the gradient on the left. Used to inject power and a sense of newness. Vivid Aqua Green #88FFC2 Flow & Transition. The dynamic midpoint. Acts as a smooth, futuristic bridge between the strong Yellow and Blue. Deep Electric Blue #32B0ED Stability & Technology. The end point of the gradient on the right. Grounds the design, adding trust and depth

Vivid Aqua Green #88FFC2 Flow & Transition. The dynamic midpoint. Acts as a smooth, futuristic bridge between the strong Yellow and Blue

Deep Electric Blue #32B0ED Stability & Technology. The end point of the gradient on the right. Grounds the design, adding trust and depth

Export to Sheets II. Detail & Effect Colors (Overlays) These colors are used for the textures and lighting effects that define the technological theme:

Color Name	Hex Code (Approximate)	Function and Mood
Pure White	#FFFFFF	Light Bloom (Diffused)
Focal Point & Clarity		Used for the bright, soft glow in the center, drawing the eye and symbolizing a core idea/solution.
Faint Glowing Circuitry	#FFFFFF (Low Opacity)	Connectivity & Structure. Used for the subtle, thin lines of the circuit board pattern, reinforcing the high-tech visual identity without being distracting.
Shimmering Bokeh/Particles	#FFFFFF (Sparse Dots)	Ethereal/Digital Touch. Used for the tiny, scattered white dots, adding depth and a feeling of subtle digital data flow.

Export to Sheets Typography : Font type : Tajawal such as Or DG Bebo such as Font color : white or Baby Blue Font size 70 : 80) OR (90: 100) Image text placement: Top of the image or right of it Visual patterns: They depend on the shape of circles or electronic lines that express the identity of the work. We do not depend on any other geometric shapes. The quality of the pictures: Portions of website or mobile app images, or business photos

 All videos on TikTok are vertical (9:16) only

Recommendations & Next Steps

To maximize growth and strengthen Resonal Tech's presence in the Saudi market, the following strategic recommendations are proposed:

1. Content & SEO Development

- إعداد Blog Content Calendar شهري متوافق مع كلمات الـ SEO المستهدفة لزيادة الترافيك وتحسين ترتيب الويبسايت.
- نشر محتوى تعليمي متخصص يخدم القطاعات المستهدفة (الطب - التعليم - التجارة الإلكترونية).

2. Social Media Expansion

- التوسع في منصات مهمة داخل السوق السعودي مثل: LinkedIn - Snapchat - TikTok
- استخدام اللهجة البيضاء (White Dialect) في المحتوى الإعلاني لضمان قرب الرسالة من الجمهور السعودي.
- الاعتماد على Stories Strategy مع طرح أسئلة تفاعلية لزيادة الـ Engagement وجذب الـ Leads.

3. Paid Ads Strategy

- إطلاق Google Ads Campaigns تستهدف:
 - Keywords خاصة بسوق السعودية
 - قطاعات عالية الطلب مثل حلول العيادات، الجامعات، والمتاجر الإلكترونية
- بناء Funnel مدفوع يعتمد على Retargeting → Leads → Performance.

4. Email Marketing Automation

- إنشاء Email Marketing Campaigns دورية تشمل:
 - Welcome series
 - Service education
 - Seasonal offers
- مع تقسيم القوائم (Segmentation) حسب القطاع لضمان أعلى معدل تحويل.

5. Service Positioning & Product Expansion

- إبراز خدمات أكثر تنوعًا مثل:
 - AI Services
 - Digital Marketing Campaign Management
 - Hypered Packages كحل جاهز وسريع للشركات الصغيرة والمتوسطة.
- تخصيص رسائل تسويقية لكل قطاع لضمان أعلى Relevance.

6. Full-Year Marketing Plan

- وضع خطة تسويق سنوية شاملة تتضمن:
 - أهداف واضحة KPIs
 - حملات موسمية
 - استراتيجية محتوى
 - Ads budget distribution
- لضمان بناء Brand ثابت وزيادة الـ Leads بشكل مستمر.
